**RE: Oxy Permian \* Hackberry 6 Fed Com #4H \* 30-015-41248 \* 2RP-3204**

Your closure request for the above listed release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Heather,

I had a conversation with Shelly about this and she is okay with the closure as submitted. Shelly is copied on this email and she knows that I was going to send it. If this meets your satisfaction, we would appreciate your response accepting closure. If you have any further questions, please let us know so we can address them.

Thanks, Cliff
