Subject: Government D4 Battery

Mike/ Jim

Per our meetings yesterday concerning the cleanup on the Government D4 release, Chesapeake has excavated one foot from the flow path area and 3 feet from SP1. Per our meeting OCD and BLM has approved the plan to install a clay barrier around SP1 and backfill with caliche material on location. The area off the well pad has been excavated to a depth of one foot and will be backfilled with topsoil and reseeded. Upon completion of the job a final C-141 will be filed. Please respond back you're your approval of the plan forward.

Thanks,

Bradley Blevins
