Subject: RE: Vega 9 Federal Battery Fire - 11/18/2014
Date: Thursday, November 20, 2014 12:55:34 PM

Heather/Mike,

After investigating the fire incident we have determined that we lost approximately 10 barrels of crude oil and 20 barrels of produced water none recoverable. Talon will be out to location to assess the impact.

C-141 to follow.

Subject: Vega 9 Federal Battery Fire - 11/18/2014

Mike/Heather,

At approximately 9 PM (MST) yesterday evening a fire occurred at the Vega 9 Federal Battery. The Loco Hills & River Side Fire department were called out to location to put the fire out and did so safely. As of right now we know that 2 heater treaters and 2 separators were damaged during the fire and a unknown amount of fluid was released. The foreman over this area will investigate the incident at sun rise and update.
