Cliff,

Your proposal for remediation of the above referenced release is approved. Please provide OCD with analytical data from the 90 day sampling event. If after 180 days of the proposed bioremediation, RRAL's for the site are not met, an alternative method of remediation may be required. Please notify the District 2 office once remedial activities have been scheduled. Federal sites will require like approval from BLM.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Mike,

This e-mail is to confirm our discussion concerning the remediation plan for the Oxy Pure Gold A Federal #2 Battery release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply back via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
