Describe Cause of Problem and Remedial Action Taken.* A repair clamp on a buried 4 inch fiberglass line failed resulting in the loss of fluid. The line was isolated and a vacuum truck was dispatched to pick up standing fluid.		
Describe Area Affected and Cleanup Action Taken.* The entire release was in the pasture. The area was mapped and a one call placed to permanently repair the line. Once the site is delineated a corrective action plan will be submitted.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
