**Attachments:** Littlefield BO 2 Battery Excavation Map.jpg

**Follow Up Flag:** Follow up  
**Flag Status:** Completed

Ms. Van Curen, RECS received the below email from Joe Compton from GPII Energy. GPII Energy has assigned the site to RECS. Attached is the excavation map as the site stands now. I would like to either call or meet with you regarding site remediation. Due to the BLM shut down, RECS neglected to send the data to you once BLM was back up. For this, I apologize for the delay.

Please contact me your convenience and RECS will continue with remediation activities with your approval.

Thank you,  
Hack Conder

This location is past due for reclamation to be completed. The last notice I received was on 7-7-13 stating that Basin was going to be the contractor to evaluate and remediate. I have not received a plan or sample results for this site. I will need to receive data by 12-9-13, or I will send an INC for noncompliance with 43CFR3162.5-1 (b). If you have any questions you can contact me for assistance. My information is below. Thanks.
