**Subject:** Sand Dunes Compressor Station Below-Grade Tank Registration  
**Date:** Thursday, June 23, 2016 9:25:00 AM

---

**RE: Enterprise Field Services \* Sand Dunes Compressor Station \* fAB1614027271 \* OCD admin order: 144B-101**

Mr. Fields,

Your Registration for the below-grade tank at the Sand Dunes Compressor Station is approved. Be advised that if the below-grade tank develops a leak, the operator shall remove all liquid above the damage or leak within 48 hours of discovery and notify the district II Artesia office.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson  
Environmental Specialist
