Subject: RE: Final C-141, Government NBFD Battery East Oil Tank

All,

I am not going to be able to close this out like it is written up. 20 bbl release, one line states no fluid recovered, next line states remediation completed by recovering all fluid. Was the liner inspected for integrity? Needs to say. What happened to the 20 bbls? Needs to say – just need a little more information.

Thanks,

Mike Bratcher
