Amber,

The diagram shows the wellhead and the small fence around it, the release did not leave the pad.

Good Morning,

According to your site diagram, it shows the release to be outside of the fenceline. Is this release all on the pad or will there be pasture disturbance?

Thank you,

Greetings,

Your proposal for remediation of the above referenced release is approved. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
