Subject: RE: COG - GJ West Coop Unit N TB - Remediation Plan

RE: COG * GJ West COOP Ut North Tank Btry * 2RP-3607 * DOR: 2/24/16

Cliff,

Your proposal for remediation of the above referenced release is approved. It is noted that the area identified as SP-1, SP-2 and SP-3, will be excavated to the extent practicable, but will be extremely limited due to numerous poly lines across the area. This portion of the release will be placed for deferral by OCD. As discussed, the barrier medium will be clay/bentonite where proposed. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Subject: COG - GJ West Coop Unit N TB - Remediation Plan

Mike,

This e-mail is to confirm our discussion concerning the remediation plan for the COG GJ West Coop Unit N TB release. I have attached the information packet that we used in our discussion with a cover page describing the remediation plan that we agreed upon.

If you would please reply back via e-mail with your concurrence on this plan, it would be greatly appreciated.

Thanks, Cliff
