Kathy,

I will agree that remediation efforts have been achieved. However, the work plan was just presented to me yesterday. At that time, I requested a revegetation plan and advised that an ROE would be necessary for ground disturbance on this location. I am still requesting a revegetation plan as well as an ROE. Please submit this as soon as possible. Also, please include me when work plans and closure plans are submitted to NMOCD on anything regarding state trust land.

Thank you,

Amber Groves

Kathy,

Your closure request is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
