RE: Matador Production \* Cedar 32 St Com 1 \* **2RP-3637** \* DOR: 4/4/16

Catherine,

I believe we have everything to close this out. All related documents, along with the approved Final C-141 will be available for view, on OCD Online, today.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In

addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
