**Attachments:** Pictures, pad reclamation.pdf; Closure Report, Montana 1 Fee 3.pdf

In response to the request made by Heather Patterson below; BBC removed all impacted material on the location and completely reclaimed the pad in question. Attached are pictures detailing the reclamation of the pad at this location. BBC International requests complete closure at this time. The original email requesting closure is located below and I have attached the closure report submitted with the original request for your convenience.

RE: COG \* Montana 1 Fee #3 \* 30-015-39616 \* 2RP-3468

Kathy,

Before we close this one out, the OCD will need evidence that the pad is also clean. A site inspection revealed that the liner was breached by the fire and hydrocarbon impact is still evident on the pad. There is also a pile of heavily impacted material on location.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Heather Patterson
