Christine,

NMSLO will agree that remediation has been achieved. This site will not be completely closed out with NMSLO until desired vegetation is achieved, therefore it will be considered in a monitoring period. Also, please be advised that all noxious weeds should be accounted for along with African Rue.

Thank you,

Amber Groves

RE: Cimarex Energy * Silver Charm 12 Ut 1H (Texas well) * 2RP-3808 * DOR: 7/26/16

Christine,

Your request for closure of the above referenced release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher
