RE: COG * Pilum 15 FEE 2H * 2RP-3655 * DOR: 4/4/16

Dakota,

Your proposal for remediation of the above referenced release is approved. Please obtain representative sidewall samples for lateral confirmation, and include this data and diagram in the closure report. Field screens may be used to facilitate backfill while equipment is mobilized. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
