Subject: RE: EOG - Ross Gulch 8-3 SWD - 2 RP 3993 - Remediation Notification

Mike,

EOG is scheduled to performed the proposed remediation at the above referenced site on Friday (3-31-17). Once excavated to the appropriate depth, the area will be backfilled with clean soil to grade. Tetra Tech will then follow-up with a closure report for the site. Let me know if you need additional information, thanks

Subject: RE: EOG - Ross Gulch 8-3 SWD - 2 RP 3993 - Work Plan Approval Request

RE: EOG Resources * Ross Gulch 8-3 * **2RP-3993** * DOR: 11/6/16

Ike,

Your proposal for remediation of the above referenced release is approved. OCD requests samples be obtained for analyses just outside the identified impact areas, for confirmation of lateral definition. Notify OCD if the excavation proposed is not achieved. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In

addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.
