Re: McKittrick 29-22 workplan for the characterization of impacts – Case # 4121

Dear Ms. Weaver,

WPX proposes to excavate one pothole from the impacted area inside the SPCC containment to a depth that will not compromise the safety and stability of the production tanks. Collected samples will be analyzed for TPH, BTEX and chlorides. Further delineation and remediation will be based on these results. Once the characterization is completed, WPX will submit the results to OCD along with a cleanup plan for prior approval.

WPX will start the delineation activities upon the approval of this request.

Please do not hesitate to call me if you have any questions.

Sincerely,

A handwritten signature in blue ink that reads "Karolina Blaney".
