RE: EOG Y Resources * Spunky BUK State Com #1H * 30-015-42624 * 2RP-3037

Chase,

Your request for closure of the above referenced release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact me.

Thank you,

Crystal Weaver

Subject: C-141 Final Spunky BUK State Com #1H

Mr. Bratcher,

Please find attached the C-141 Final for the below listed location. The C-141 Final is being submitted based on impacted soils being disposed of at an NMOCD approved facility as required by the conditions of approval. The bioremediation process would have exceeded 180 days (12/16/2016, results enclosed), therefore the second treatment round was not undertaken. Also attached are further delineation analytical results for the S2 area, identifying chloride concentration below 250 mg/kg. EOG Y Resources, Inc. requests closure.

Spunky BUK State Com #1-H
