Karolina,

Your delineation proposal is approved.

Thank you,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations

Crystal,

Attached is the revised C-141; I was so focused on getting the coordinates right for once and forgot about the dates... Please forgive.

Hey Karolina,

I am looking over the C-141 that you sent and for this one and it shows a day of release as 11/4/16 with immediate notification on 11/5/16. I am thinking this is a typo. If so could be we got the correct dates.

Thank you,

**Subject:** WPX RDX 17-20 spill notification

Good afternoon,

This morning, WPX had a spill at the RDX 17-20 well pad; API #3001541381, qtr/qtr A, Sec. 17 T26S R30E. The cause of the spill is mechanical failure; a hose on a charge pump was exposed to constant vibration and developed a hole.

Approximately 400 bbls of produced water got spilled with 100 bbls recovered with a vacuum truck. Some of the spilled fluids migrated to the north of the well pad and impacted an area of ~100'x100'.

The C-141 report will be submitted within the next 15 days however, please feel free to contact me with any questions or concerns.

Thank you and have a great weekend,
