RE: Devon Energy * Cotton Draw Ut 255H * 2RP-4106 * DOR: 1/20/17

Greetings,

The Talon remediation proposal for the above referenced release is approved. It is OCD's understanding that samples will be obtained during excavation activities to confirm lateral definition of chloride impact, and that field screens will be utilized for this determination. Please include that data in the closure report, and, advise once remedial activities have been scheduled. Federal sites will require like approval from BLM.

If you have any questions or concerns, and for notification, please contact me.

Mike Bratcher
NMOCD District 2
811 S. First St.
Artesia NM 88210
575-748-1283 Ext 108
mike.bratcher@state.nm.us

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
