Greetings,

Your proposal for remediation of the above referenced release is approved. OCD does request excavation in the area identified as T-3, be extended to include the 6' interval. Federal sites will require like approval from BLM. Please advise once remedial activities have been scheduled.

If you have any questions or concerns, and for notification, please contact me.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
