OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mike and Crystal,

Attached are work plans to address the releases that occurred at our battery and north of the well location last year. I would like to come by your offices to discuss the proposed remediation of the site. Please review the reports at your convenience and I will be happy to answer any questions you may have.

Do you have time to meet **Wednesday 9 am**?
