RE: **2RP-602**

Josepha,

OCD does have the analytical data obtained, and approved backfill 2/17/2011. Your Final Report C-141 for the above referenced release is approved and the incident will be closed. It is a Federal site, so like approval from BLM will be required.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
