John,

Your proposal for remediation of the above referenced release is approved. Federal sites will require like approval from BLM. Please advise once remedial activities have been scheduled.

PLEASE NOTE: The Form C-141 Initial Report included in this submittal is for 2RP-3861. It was an 8 bbl oil release that occurred on 8/23/2016. OCD records indicate this is an active/open release event.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
