Dakota,

NMSLO agrees with NMOCD on site closure.

Thank you,

RE: COG \* Buena Vista 2 State COM #2H \* 30-015-41290 \* 2RP-4369

Dakota,

Thank you for the statement within your email below that attests to the fact that COG conducted an integrity check of the secondary containment liner. Please for next time could you make sure to include that statement on the Final C-141 as well.

Your request for closure of the above referenced release is approved.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns please contact Mike Bratcher and/or myself in the District II Office.

**Subject:** (C-141 Final) Buena Vista 2 State #2H 9-1-17 (30-015-41290)

Ms. Weaver / Ms. Groves,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.
