RE: EOG (Yates Pet at time of release) * Steelers BRS St 1H * 2RP-1972 * DOR: 9/22/13

Greetings,

EOG's request for closure of the above referenced release is approved. It is OCD's understanding that in Table 2, the sample dates listed as 10/8/2017 at sample number P1, should read 10/8/2013.

Thank you,

Mike Bratcher
NMOCD District 2

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Good afternoon,

SMA is pleased to submit the Closure Report summarizing the confirmation sampling conducted at leak at the Steelers BRS State #001H (**2RP-1972**) on behalf of EOG Resources.

Our investigation puts this location at a site ranking of 10.

I have attached the report which includes a site map, summary table of the lab results, and the lab report.

Please let me know if you need any further information.

Thank you,

Austin Weyant
