RE: COG Operating * Puckett 13 Fed Tank Btry * **2RP-4073** * DOR: 1/6/17

Greetings,

The request for closure of the above referenced release is approved. Be advised for future projects, NMOCD Environmental Bureau has requested chloride levels be 600 mg/kg or less for closure. Federal sites will require like approval from BLM.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
