RE: COG * Diamondback 22 St Com 2H (opened under well # 1H) * **2RP-4275** * DOR: 6/19/17

Sheldon,

Your request for closure of the above referenced release is approved. OCD notes per your previous email and amended Initial C-141, that this release was reported as having occurred on the 1H well, but actually occurred on the 2H well.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Ms. Weaver/Ms. Groves

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank You,

Sheldon L. Hitchcock
