Hello Rover Operating,

For the Yates State Battery, I am going to need the actual unit letter as S is not a unit. Please advise on this as soon as possible so that I can check whether you will need a right-of-entry permit from our office for this release. Also, your C-141 states re-vegetation so I have attached NMSLO's requirements for such as this facility is on state surface and state minerals.

Thank you,

Amber Groves

Subject: Requesting that you please send all correspondence to both Mike Bratcher and myself for OCD District 2

Hello Rover Operating folks,

I am a newer addition to the OCD Artesia District 2 Environmental team. With that being said, I have a few things below that I wanted to mention to you all.

- 1.) I am sending you your signed C-141's for the releases you informed us of at Yates State Battery (tracking number 2RP-4085) and Hastie Federal Battery (tracking number 2RP-4084) along with our required Conditions of Approval attachment.
- 2.) I am also requesting that you please include me on all your OCD District 2 correspondence regarding spills from here on out, but also please note that if the spill is on State land or Federal land you need to include the ladies I added to the cced section of my email above. Amber Groves is who you need to inform for all State owned land releases and Shelly Tucker is who you need to inform for most of the Federal owned land releases. If you have any further questions for them please follow up with them.
- 3.) Also please make sure to include latitude and longitude (decimal degree preferably) coordinates on every C-141 spill report turned in.

If you have any questions or comments for me please feel free to contact me.

Thank you,

Crystal Weaver
