Crystal,

I don't have this one on my list of spills and it occurred before a started here at COG but fortunately Sheldon worked on it at Talon and now he works here. I will get with him and see what we can figure out and will get back with you.

Thank You,

RE: COG * SRO State COM #43H * 30-015-41141 * 2RP-4405

Becky,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4405. Please remit a site characterization plan or advise OCD of plan of action by no later than 10/15/17.

Please note: I was looking through the records for this API number and I came across a record for case number 2RP-3350 that hadn't been followed up on in years (11/2015 date of last correspondence). Please remit some sort of progress indication for this project. For your reference I have attached the last document on file that we have for this case which was an approval of a work plan.

Thank you,

Crystal Weaver
