RE: COG * Foster Eddy 11 * **2RP-3574** * DOR: 2/12/16

Sheldon,

Your request for deferral of the above referenced release is approved. It is OCD's understanding that impacted material was removed to the extent practicable and safe. The Final Report C-141 will be accepted for record, with notations made in OCD database of the remaining impacted material. The 2RP number will remain open, and show as an open environmental compliance issue. It is also OCD's understanding that BLM approval of this proposal has been obtained.

If you have any questions or concerns, please contact me.

Thank you,

Mike Bratcher

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mr. Bratcher/Ms. Tucker,

Please see the attached deferral request for the Foster Eddy #011. The excavation at this site was extended to the greatest extent feasible without threatening infrastructure and/or endangering personnel. If you have any questions or concerns after reviewing the report please do not hesitate to contact me.

Respectfully,

Sheldon L. Hitchcock
