Subject: El Paso Natural Gas - Line No. 1100 Spike Hydrotest - Segment 5 release - Request to backfill
Attachments: NMOCD Form C-141 - EPNG L1100_Hidalgo Co. (Segment 5) - Initial Report Leak (11-20-17).pdf

Importance: High

Dear Folks,

EPNG submitted the Form C-141 regarding a hydrostatic test leak on Segment 5 of the Line 1100 Hydrostatic Test Project on 11/20/2017. Included in the submittal was the soil and water analytical results. (I have not received an OCD Tracking number for this event as of this date). This site is located on BLM lands.

We have successfully completed the hydrostatic testing of Segment 5 and **need to backfill** the pipe repair site.

Please review the analytical sampling report and provide concurrence that we may proceed with final backfill and restoration.

Thanks so much,

Amy
