RE: 2RP-4208

Chase,

OCD does agree to forgo installation of the liner in the area of concern around the pipeline for reasons provided by the pipeline operator.

Thank you,

Mike Bratcher
NMOCD District 2
811 South First Street
Artesia, NM 88210
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mike,

OneOK NGL Pipeline has a steel pipeline running through the very corner of the S2 release area and have requested that the liner not be installed under their pipeline due to erosion concerns. I've attached a map with that area highlighted yellow, as well as a letter from OneOK with their request for this change. I will await your decision to this amendment of the approved work plan before moving forward.

Thank you,

Chase Settle, M.S.
