Subject: UPDATE: Chi - BDU #6 release
Date: Monday, September 25, 2017 8:42:01 AM

I just wanted to give an update to BLM and OCD regarding the status of the **Chi Operating – BDU #6 Release**:

Hicks Consultants met with Chi and its contractor on site last week to discuss site conditions and a possible remedy. Hicks collected additional samples and submitted for laboratory analysis the same day. We are working on a remediation plan and will be ready to submit to BLM and OCD shortly after lab results return. Please contact me if you have any questions. Thank you.
