RE: COG * JR'S Horz Fed Com 6H * **2RP-4312** * DOR: 7/28/17

Cliff,

Your proposal for remediation of the above referenced release is approved. As indicated, in the event a four foot excavation is not achieved for liner placement, OCD and BLM are to be advised and the plan re-evaluated. Federal sites will require like approval from BLM. Please advise once remedial activities have been scheduled.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
