Hello Ms Tucker,

My names is Amy and I will be your point of contact for this spill going forward. I have reached out to the company we are working with to get a status update. I will let you know as soon as I receive an answer from them. Please do not hesitate to contact me should you need anything.

Thank you,
Amy Barnhill, BSEM

The **BLM acceptance/approval does not** relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment or if the location fails to reclaim properly. In such an event that the location does not revegetate, or future issues with contaminants are encountered, the operator will be asked to address the issues until the contaminant issues are fully mitigated and the location is successfully reclaimed. In addition, BLM approval does not relieve the operator of responsibility for compliance with any other federal, state or local laws/regulations.

Shelly,

The rig has recently been moved and we were able to schedule delineation sampling and development of the remediation plan. If the weather permits the crew will take delineation samples this week. Once the plan is prepared it will be submitted to Crystal Weaver and yourself at the earliest possible date. Please let us know if there are any concerns.

Happy Holidays!

Shelly / Crystal, I spoke to Mike and explained that the drilling rig is still at this site. As soon as drilling is completed and the rig is moved off remediation will begin according to conditions of approval.

Thank you for your follow up.

Josie,

There were some issues trying to be sure what locational information that was on the C-141 was correct, however, it seems that the coordinates are right cause they match the API location so Olivia forwarded this one on to District II OCD Office. I was not sure if Shelly Tucker had originally been copied on this one or not so I included her. Also we did get an immediate notification from you on this one to District II. So I am thinking the Initial C-141 just made it to Olivia and Co. in District 1 as a miss shuffle. Either way no biggie just wanted to make sure it is now where it is supposed to be.

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval. The OCD tracking number for this event is 2RP-4202.

Thank you,

Crystal Weaver
