RE: Lucid \* Emma 8" Steel Line \* fAB1806440448 \* 2RP-4646

Hello all,

Upon review of the work done for this location and the closure report sent OCD approves this release site for backfill and closure.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

If you have any questions or concerns, and for notification, please contact Mike Bratcher and/or myself in the District II Office.

Crystal and Mike,

Good morning. Please find the attached Final C-141 and closure report for the Emma 8" Line release (2RP-4646). Lucid is requesting backfill and closure approval for the site based off of the completed remediation work, and sampling data.

Please review and let us know if there are any questions regarding this matter.

Respectfully,

**Kerry Egan**
