Jim,

Thank you for the update and the response. I agree that concluding on a groundwater depth for that area may be difficult. We look forward to seeing your further sampling results in the next stage of this project.

Sincerely,

### Crystal Weaver

RE: WPX/RKI \* Pinnacle State #2 \* 30-015-27071 \* 2RP-4492

Karolina,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4492, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 1/5/18.

Thank you,

**Subject:** Pinnacle State 2 spill - C-141 report

Good afternoon,  
Attached is the C-141 report for the spill that occurred south of the Pinnacle 2 well pad.  
Please let me know if you have any questions or concerns.  
Thank you and have a great weekend,

**Subject:** Pinnacle State 2 spill - initial notification

Good morning,

WPX had a spill yesterday evening, 11/2/17, at 6pm. The spill occurred on a lease road south of the Pinnacle State 2 well pad (API # 30-015- 27071), coordinates of the spill: 32.35043, -104.04907. It appears that heavy equipment (i.e. low boy trailer) damaged a surface poly line which resulted in ~18 bbl spill of produced water. 13 bbls were recovered with a vacuum truck.

The spill will be cleaned up as soon as the line locates are completed. The C-141 report will be submitted by 11/17/17.

Please do not hesitate to contact me if you have any questions.

Thank you,
