OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

Mike and Crystal,

Please see the attached closure request for a historical release at the JRU 16/2RP-3315. If you have any questions, please do not hesitate to contact myself or Kyle Littrell at XTO.

Thank you
