Hello all,

Ben thanks for the update on this one. We look forward to seeing what the additional samples show and seeing the work plan come thru. If BTEXs & total TPH don't show clean via lab data by the 4ft. mark then delineation will have to continue till they do show clean in 1' intervals of lab tested data till we get there.

Thanks,

Crystal Weaver

All,

Trinity Oilfield Services, on behalf of OXY USA, Inc., is pleased to submit the attached "Environmental Site Summary" for the FNR 26 Federal 31 CTB release site (2RP-4595).

If you should have any questions or concerns, please do not hesitate to contact me by telephone or email.

Thank you for your time and consideration.

Respectfully,

Ben J. Arguijo

RE: OXY * FNR 26 Federal #1 Central Tank Battery * 30-015-30412 * 2RP-4595

Wade,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4595. please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action immediately since this one had a due date of 3/3/18 and that has passed.

Thank you,
