RE: Energy Transfer Partners \* TD-5 10" \* **2RP-4273** \* DOR: 6/22/17

Alan,

This proposal for remediation of the above referenced release is approved with the following:

- All material exhibiting BTEX concentrations in excess of 50 mg/kg, and TPH concentrations in excess of 5000 mg/kg are to be removed.
- Notify the District 2 office once remedial activities have been scheduled.
- Federal sites will require like approval from BLM.

Thank you,

Mike Bratcher  
NMOCD District 2  
811 South First Street  
Artesia, NM 88210  
575-748-1283 Ext 108

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.

---

Mike and Yolanda,

On behalf of ETC, GHD is submitting this updated Remediation Summary report for the above referenced site for your review. Please let us know if you have any questions.

Thank you

**Alan Brandon**  
**Senior Project Manager**
