Attachments: table 3.pdf; roadrunner teg fig 2.pdf

Crystal,

Again my apologies for the delayed response. I've attached the sampling analysis and diagram that we have prepared so far. As described in the C141, Lucid scrapped and disposed of the top layer of contaminated material as soon as possible after the release. These sampling results indicate the need for further excavation, which is what we have planned for. We are using a site ranking of 20 for this site, and the corresponding Recommended Remediation Action Levels, to guide the work. Unless you have any objections, Lucid will proceed with conducting the final necessary excavation work and collect closure samples. We'll then submit all of the collected information in a backfill/closure request for the site.

Please let me know if you have any questions regarding the information provided here, or our planned work for the site.

Thanks,
Kerry Egan

RE: Lucid * Roadrunner Gas Plant * fAB1806740738 * 2RP-4654

Kerry,

I have included a scanned copy of the signed Initial C-141 Remediation Permit along with an attached Conditions of Approval (COA). The OCD tracking number for this event is 2RP-4654, please refer to this tracking number on any and all submissions sent in to the OCD. Please remit a site characterization plan (see COA document included in attachment) or advise OCD of plan of action by no later than 4/8/18.

Thank you,

Crystal Weaver

Subject: Lucid Energy: Roadrunner Gas Plant Release Notification

Mike and Crystal,

Please find the attached initial C141 for a release at the Roadrunner Gas Plant. On 3-4-18 a release of approximately 1000 gallons of Triethylene Glycol (TEG) occurred at the plant. At that time the plant was in startup/commissioning mode. The TEG had just begun to circulate and treat gas, so there is the potential for minor hydrocarbon contamination.

Remediation work has already begun by removing the more heavily contaminated gravel and pad material. Soil sampling will dictate what further actions are needed. We will prepare a remediation workplan and/or closure report, depending on the sampling results.

Please let us know if there are any questions or concerns regarding this notification.

Thanks,

Kerry Egan
