Crystal,

Just thought I would give you an update on the two above sites. I was initially told that we were going to monitor these two wells until the beginning of December and then we could proceed with the environmental assessments. However today they have decided to monitor the wells for another month. They want to make sure that the wells will not breach again. I think it is probably a good idea, it is better to be sure. We will schedule the assessments for some time in January.

Thank You,

Becky Haskell

RE: COG * GJ West Coop Unit #108 * 30-015-20192 * 2RP-4351

Becky,

I also wanted to ask are there any updates on COG's response efforts for this release since we last talked regarding it on 9/20/17?

Please advise.

Thank you,

Crystal Weaver

Ms. Weaver / Ms. Groves,

Please find the attached C-141 for your consideration. This release is from a well that was plugged in 2015. Actions are ongoing to re-plug the well and at the moment the release of fluids has been stopped. If any additional fluids are released during efforts to re-plug the well, COG will update you regarding final volumes. If you have any questions or concerns please contact me.

Thank You,
