The above referenced release will be accepted for closure. Please be aware going forward, OCD will require a statement in the Final C-141 attesting to the integrity of the liner. Photos will be encouraged if sent in small size format. Federal sites will require like approval from BLM.

Thanks,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to ground water, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, local laws and/or regulations.
