Hello Ms. DeLeon,

Thank you for this update! It has been assigned 2RP-5046. My understanding is that this is on State land, can you confirm?

Best Regards,

Maria Pruett

Subject: **[**EXTERNAL**]** RE: HH NM Frac Pad Spill - Septemer 15, 2018

Hello Ms. DeLeon,

Thank you for speaking with me today. As we discussed there are a few items needed to complete the processing of this spill.

1. The lat/long and the API are over 5 miles apart, if the spill location is at the lat/long location it is not necessary to tie it to an API.
2. The spill section/township/range etc. should be updated to the correct coordinates.
3. OCD will need a little more detail on the spill calculations, possibly hole size, duration of leak, a photo with GPS coordinates if possible.
4. Please also note this area has a DTW of < 50' and is in a medium karst area, both items will place your Table 1 limits to DTW < 50'.

Please let me know if you have any questions or need further assistance.

Best Regards,

Maria Pruett

Josepha,

I will forward this to Maria Pruett. **PLEASE** be sure to include her in all environmental correspondence for District 2 as she is now the District 2 Environmental Specialist.

Maria's email: maria.pruett@state.nm.us

Thanks,
