Hello Ms. Grant,

OCD has received the C-141 closure for 2RP-4951, thank you. At this time OCD cannot approve this closure due to the following:

1. GPS photos required for closure.
2. Unable to determine liner integrity from quality of photos.

Please let me know if you have any questions.

Best Regards,

Maria Pruett

Ms. Pruett/Ms. Tucker,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

DeAnn Grant

HSE Administrative Assistant
