Subject: RE: Remediation Closure/Deferral Plan for the Oil CDP (2RP-5174)
Attachments: Oil CDP Deferral Plan (OCD Approved).pdf

Melodie,

SMA's closure report for the above referenced release, requests areas impacted by the release, be deferred for remediation until site abandonment or access to the area is achievable. The areas requested for deferral are identified on the site map as "BH4". The area has been delineated and documented in the report. At this time, OCD approves this request. The Final Report C-141 will be accepted for record and marked accordingly. The release will remain open in OCD database files and reflect an open environmental issue.

Thank you,

Robert J Hamlet

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
