Good morning,

My database indicates this release is on state surface, not BLM. NMSLO is in concurrence with NMOCD. No further action is necessary.

RE: (C-141 Final) SRO State Com #018H (30-015-39999) 12-05-2018 (**2RP-5126**)

Ms. Grant,

Please, disregard the Final C-141 signed earlier for **2RP-5126**. The closure approval date has a typographical error. The corrected Final C-141 is attached. I apologize for any confusion that this may have caused.

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher/Mr. Mann,

A final inspection has been conducted regarding the clean-up efforts made at the above mentioned lined facility. Free fluids were removed and if present the impacted gravel was removed from the liner and taken to a NMOCD approved disposal facility. The liner was inspected for damage and found to have liner integrity to contain free fluids. Please see the attached Final C-141 and picture taken during the final inspection conducted by a COG HSE representative.

Thank you,

**DeAnn Grant**
