OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Mr. Bratcher/Ms. Tucker,

Please find the attached C-141 for your consideration. The calculation sheet to determine the estimated release volume is also attached. The liquid lost estimate is based on the spill dimensions and estimated depth of fluid (wet gravel depth). The spreadsheet will calculate the volume lost in the gravel, but does not include the recovered amount in the calculation. The calculated volume in the gravel and the volume recovered were added together and reported on the C-141.

Also, COG Operating, LLC is giving notice that a final inspection will be conducted at the above mentioned location in two (2) business days. Please contact me if you have any questions or concerns.

Thank you,

*DeAnn Grant*
