Subject: RE: - ETC;s Cal B Pipeline - Site Assessment Summary and Proposed Remediation Plan Approval (2RP-5103) (11-22-2018)
Attachments: 2RP-5103 - Cal B Pipeline - Pages from C-141 (Remediation Plan) Approval.pdf

Joel,

We have received your Workplan/Remediation Proposal for 2RP-5103 Cal B Pipeline, thank you. This Workplan/Remediation proposal is approved.

The current NM OCD Environmental map does not consider this a "High Karst" area. Please excavate V-2 6", V-3 6", V-4 1' as explained in the proposed remediation plan, since they are relatively shallow. A best case effort needs to be made at V-1 4' either through a track hoe, hydro vac equipment, or other options to replace the 4 feet of contaminated soil with clean material. If resilient rock is encountered, please document the locations and depths, so we can have a full understanding of the situation.

Please let me know if you have any further questions.

Regards,

OCD approval does not relieve the operator of liability should their operations fail to adequately investigate and remediate contamination that may pose a threat to groundwater, surface water, human health or the environment. In addition, OCD approval does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

Subject: [EXT] 2RP-5103 - ETC;s Cal B Pipeline - Site Assessment Summary and Proposed Remediation Plan

Please find attached the *Site Assessment Summary and Proposed Remediation Plan* along with the applicable pages of the Form C-141 that has been prepared for ETC's Cal B Pipeline release. The release site is located on Federal land within Unit Letter "A", Section 12, Township 26 South, Range 31 East in Eddy County, New Mexico. If you have any questions or need any additional information, please feel free to contact me by phone or email. Thanks.

Mike, this is the project that we had discussed in which we resulted to utilizing a masonry drill to collect many of the shallow delineation samples.

Yolanda, I believe this was the larger release that you had seen on the Cal B that day that you were down there.

Respectfully,

Joel Lowry
